**RESOURCES** (the following information is in the *Faith Development at Home* pdf, listed above)

A large variety of tools is available to help parents in developing their children's faith. Here are a few that are simple, effective and easy to use:

- Family Huddles — the Faith Five steps (talk about the highs and lows of the day; read from Scripture; discuss how the Scripture relates to your highs and lows, pray for one another, bless one another) — five minutes a day to bring your family closer together and closer to God. See the resource on our website for more information <http://sa.uca.org.au/intergen/family-resources/familyfaith/faith-5-family> or visit Faith Ink Stepping Stones [www.faithink.com.au](http://www.faithink.com.au)
- Devotional Books (for families and/or for children) – visit your local Christian bookshop and find something that suits your family. Churches may be able to recommend local bookshops or resources.
- Bibles (age-appropriate) – In Australia we are blessed with many different types of Bibles and Bible storybooks for children of all ages. Choose ones that suit your family, stick closely to the Biblical content and are easy for your children to hold and read. Churches may be able to recommend suitable Bibles.
- Taking Faith Home leaflets for families, related to the Revised Common Lectionary used in many churches. See <https://milestonesministry.org/taking-faith-home/>

## ◆ Four key things parents can do to nurture faith in homes:

- Caring Conversation
- Serving as a Family
- Family Rituals and Traditions
- Family Devotions

These are strategies for making faith nurture a priority and intentional in the home.

These are strategies that congregations can give to parents – and support parents in using.

### **Caring Conversation**

Conversation takes time – often it's the kids who determine when the time is right.

Conversation involves both listening and talking. Conversation doesn't just drop into a family's way of doing things. Effective, caring conversation in families develops over time. Honest conversation about little things lays the groundwork for serious conversation about the big issues.

### **Service**

Developing an attitude of helping one another within the family and also doing things in the wider community as a family.

### **Family rituals and traditions**

Every family develops some rituals; the predictability of 'the way we do something' makes life in any group run smoothly. But what we want to offer parents is faith-nurturing rituals and help them to incorporate into their lifestyle are rituals or traditions that are intentionally discipling.

*Can you suggest some faith forming rituals or traditions from your family?*

### **Family devotions**

*What could these look like? What resources have you used or are aware of?*

-Introduce *Faith 5*.

## ◆ Family Practices

What does a Christian household look like? What makes a Christian family different from other families? It's not just about going to church. It's about what is done at home.

<http://sa.uca.org.au/intergen/family-resources/familyfaith/family-practices/> you will find a range of fact sheet-style resources that will help Christian families develop practices that nourish faith. Topics include Advent, Birthdays, Prayer, Mealtimes, Moving House, Mornings, Retirement and Engaging in environmental sustainability. **Family Practices** sheets are valuable for:

- parents with young children
- adults who are establishing a new family or household
- people in established households who want to be more intentional about being a missional home where faith is spoken about and put into practice.
